## PERSONAL PROJECTS

### Ecommerce Website (Front-end)

**Description:** Developed a user interface for an E-commerce website specializing in selling clothes. The E-commerce website for clothes successfully showcased a wide range of clothing products in an attractive and user-friendly manner. By employing HTML, CSS, and Bootstrap, I contributed to creating an engaging and responsive front- end interface that enhanced the overall user experience.

**Key skills:** HTML, CSS, Bootstrap

**Tools:** VS Code, Chrome

### Habit Tracker

**Description:** As part of my projects, Developed a Habit Tracker using in which users could create and delete habits, track their status for up to 60 days, and mark them as DONE, NOT DONE, or UNMARKED.

**Key Skills:** MongoDB, NodeJS, ExpressJS, EJS,SASS

**Tools:** VS Code, MongoDB, Chrome

### Alarm Clock

**Description:** Designed and implemented an Alarm Clock application featuring essential functionalities, including alarm sound, setting, and deleting alarms.The project was designed to provide a seamless and intuitive experience for users to manage their alarms effectively.

**Key Skills:** HTML, CSS, JavaScript

**Tools:** VS Code, Chrome

### Tool Tip Hovering(React Js)

**Description:** Developed a simple tooltip component using React in a project. The tooltip provided helpful information on hovering over certain elements. Implemented and customized the tooltip behavior for a user-friendly experience.

**Key Skills:** React

**Tools:** VS Code
